

## PURE HDTV

Enjoy full 1080 HDTV broadcasts with the CLEARSTREAM2™ Antenna.

Sleek and powerful, this high-performance Antenna is engineered to deliver uncompromised high gain Digital/HDTV reception.\* Pure and crisp.

\*Requires an HD television with built-in or set-top HD receiver.

### LONG RANGE INDOOR/OUTDOOR HDTV ANTENNA

## CLEARSTREAM2™

With new break throughs in efficiency and size, the CLEARSTREAMS are the first all new HDTV antennas optimized for the post 2009 digital frequencies. Engineered for reception on core UHF, this ultra-efficient design now allows powerful DTV antennas to be smaller than ever thought possible.

Popular digital antennas may claim high "peak" gains on specific frequencies, but the ClearStream models are consistently powerful across the entire DTV spectrum. With other compact antennas as little as 10% of the signal may actually reach the tuner. Advancements in efficiency mean that up to 98% of the signal actually makes it to the line rather than being lost to impedance mismatches.

- Includes mount and indoor base
- Easy set-up
- Wide reception patterns
- Maximum range of 50 miles
- 100% compatible with all DTV tuners and converter boxes
- Attractive and attention -getting package for retail

#### CLEARSTREAM 2™

- Range: Up to 50 Miles
- Gain of 10.2 dBi
- Consistent gain through the entire UHF DTV channel spectrum
- Totally new engineering for post-2009 UHF DTV frequencies
- Great for outdoor and attic use
- Dimensions: 20" H x 12" W x 5" D
