

PURE HDTV

Enjoy full 1080 HDTV broadcasts with the CLEARSTREAM 5™ Antenna.

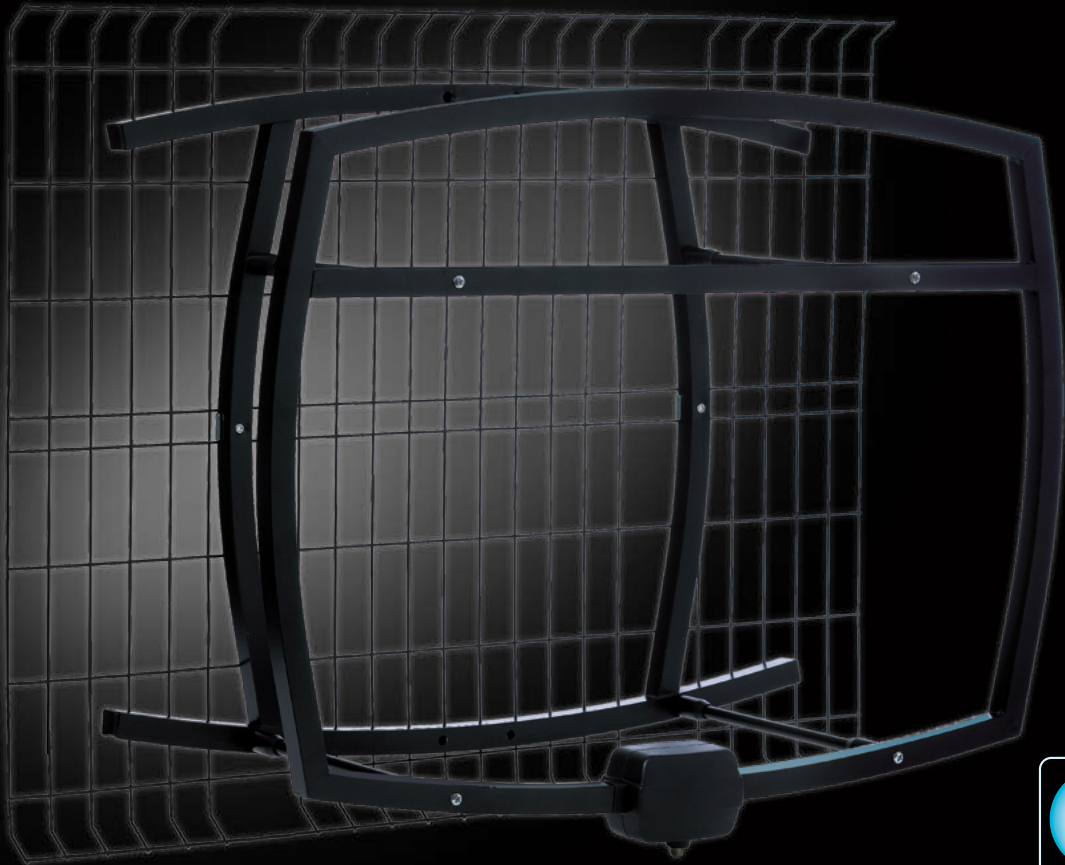

Sleek and powerful, this high-performance Antenna is engineered to deliver uncompromised high gain UHF/VHF Digital/HDTV reception.* Pure and crisp.

*Requires an HD television with built-in or set-top HD receiver.

LONG RANGE UHF/VHF HDTV ANTENNA

CLEARSTREAM 5™

Utilizing the same compact engineering which distinguishes the entire CLEARSTREAM™ family, the C5, originally targeted for the high VHF band has shown to be extremely effective on UHF as well. Therefore, it can be utilized as a UHF/VHF combination antenna. The compact 29 by 23 inch C5 is able to receive signals from great distances previously achieved by much larger, old-fashioned antennas. They are engineered for extra strength and durability, using powder-coated aluminum for corrosion resistance.

The C5 is easy to assemble and to install outdoors or in an attic.

- New engineering for current UHF/VHF frequencies
- No extra transformers needed
- 100% compatible with all ATSC tuners
- 65+ mile range (UHF range may vary)
- Shipped with UHF/VHF diplexer
- Easy to assemble
- Unmatched power and efficiency
- Flexible aiming capability

CLEARSTREAM 5™

- Max gain: 7.6 dBi VHF
- Impedance: 75 Ohm output F connection
- Size: 29" L x 23" W x 11.5" D
- 90% efficient at 200 MHz 100% compatible with all ATSC tuners
- Smallest high gain VHF antenna on the market
- New engineering for core UHF/VHF DTV frequencies
