Before attaching the antenna to any surfaces, TEST RECEPTION for any area.

1. Make sure the Antenna Kit is securely attached to the vehicle, radio, or television receiver. The Antenna Kit includes the following components:
   - Antenna Base
   - Antenna Housing
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

2. Attach the Antenna Base to the vehicle, radio, or television receiver. The Antenna Base includes the following components:
   - Antenna Base
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

3. Attach the Antenna Housing to the Antenna Base using the Spring Nut. The Antenna Housing includes the following components:
   - Antenna Housing
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

4. Attach the Antenna Wire to the Antenna Base using the Spring Nut. The Antenna Wire includes the following components:
   - Antenna Housing
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

5. Attach the Antenna Blanket to the Antenna Base using the Spring Nut. The Antenna Blanket includes the following components:
   - Antenna Housing
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

6. Attach the Antenna Blanket to the Antenna Base using the Spring Nut. The Antenna Blanket includes the following components:
   - Antenna Housing
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

7. Attach the Antenna Blanket to the Antenna Base using the Spring Nut. The Antenna Blanket includes the following components:
   - Antenna Housing
   - Spring Nut
   - Antenna Wire
   - Antenna Blanket

Troubleshooting
Problem: I am not receiving any signals at all.
Possible causes:
1. Antenna is not properly connected. Check the connections to ensure that they are secure.
2. Antenna is not properly oriented. Try adjusting the antenna to a different direction.
3. Antenna is not receiving any signals. Check the antenna's orientation and adjust as needed.
4. Antenna is not properly grounded. Check the grounding connections to ensure that they are secure.

Problem: I am receiving signals, but the reception is weak.
Possible causes:
1. Antenna is not properly oriented. Try adjusting the antenna to a different direction.
2. Antenna is not receiving any signals. Check the antenna's orientation and adjust as needed.
3. Antenna is not properly grounded. Check the grounding connections to ensure that they are secure.

Problem: I am receiving signals, but the reception is strong.
Possible causes:
1. Antenna is not properly oriented. Try adjusting the antenna to a different direction.
2. Antenna is not receiving any signals. Check the antenna's orientation and adjust as needed.
3. Antenna is not properly grounded. Check the grounding connections to ensure that they are secure.

Problem: I am receiving signals, but the reception is weak and strong.
Possible causes:
1. Antenna is not properly oriented. Try adjusting the antenna to a different direction.
2. Antenna is not receiving any signals. Check the antenna's orientation and adjust as needed.
3. Antenna is not properly grounded. Check the grounding connections to ensure that they are secure.
