Quick Start Assembly/Install Instructions

CLEARSTREAM™

Before attaching the antenna to any surface, TEST RECEPTION in that area.
Connect the antenna to the TV or converter box and run a full channel scan. If reception is not as desired, move the antenna and re-run a full channel scan.

Before beginning assembly, make sure all parts are included:
Required: Coaxial Cable, and a Modernized Cross Piece Screwdriver.

1. Attach each Antenna Base (1) at the center of each Reflector (2) and lock securely in place. Fig. 1
2. Attach the Cross Bars (3) to the back of the Reflector using the 1/4" x 5/8" Threaded Bolts (4) and the Wing Nuts (5), as shown. Fig. 2
3. Position the Loop Elements (6), so the Antenna Direct logo on each loop is in the same orientation. Then attach each Loop Element to the Antenna Base(s) (3) using the 3/8" Bolts (7), Fig. 3
4. Attach the mounting hardware by adding the Back Plate (8) to the Cross Bars (3), then insert the Mast Clamps (9) on the opposite side of the Cross Bars and into the U-Clamp(s) (10). Then lock the Wing Nuts on the U-Clamps, so they are secure. Fig. 4
5. Attach the Combiner Bar(s) (10) to each terminal on the back of each Loop Element (6) as shown. There are two attachments on each Loop Element. Securely with the Wing Nuts (5), do not over tighten. Fig. 4
6. Thread coaxial cable (not included) into the 75 Ohm Terminator (7). Fig. 5
7. Connect the opposite end of the coaxial cable to your TV or converter box.
Follow the instructions in your "TV/Converter box owners" manual to change the input from "CABLE" to "ANTENNA", "AIR", or "BROADCAST".

Point antenna in direction of your TV station's broadcast tower, and check reception by scanning for channels. If the reception is not as desired, move antenna and re-scan.

HELPFUL TIP: It's important to check the reception in the location you intend to install the antenna prior to attaching to the mast.

Tools/Equipment

Problem: I'm not getting any signals at all.
Possible causes:
1. Antenna is being obstructed.
2. Digital TV must be programmed in order to receive digital channels.
3. There may be a problem with the power source."
4. Mount Hardware:
   a. 2 - Mast Clamps and Wing Nuts
   b. 2 - Wing Nuts for Combiner Bars
5. The CLEARSTREAM™ comes with:
   a. 2 - Antenna Bases
   b. 2 - Reflectors
   c. Cross Bars
   d. 4 - Loop Elements
   e. Combiner Bars with 75 Ohm Transmitter
   f. 2 - 3/8" Bolts
   g. 2 - 1/4" Threaded Bolt
   h. 4 - Wing Nuts for Combiner Bars
6. There is a problem with the adapter ("love"")."
7. Within the setup menu select channel scanning or channel scan. Again, you may need to refer to your TV's manual for exact instructions.

8. You are not receiving any channels as designed, adjust or relocate the antenna and perform another channel scan. Please refer to section 3.
9. To test the tower carefully, perform the "tower scan" procedure as follows:
   a. Disconnect the antenna from the converter box or digital TV.
   b. Connect the converter box or digital TV without the antenna connected. As with any setup, follow the attached instructions or owner manual for your device.
   c. Depower the converter box or digital TV from the electrical outlet for at least one minute.
   d. Reconnect the antenna to the converter box or digital TV with or without the adapter ("love"").
   e. Repeat the scan procedure for the converter box or digital TV as needed. Now that the antenna is in place, the broadcast towers in your area. To locate your broadcast towers go to www.antennapoint.com or call your local TV station.
